NUMBER 8

BASKETBALL TEAM PLAYS BELOW FORM

**Win One Game On Southern
Trip And Are Nosed Out In
C. U. Series.**

Win one game on Southern trip and are nosed out in C. U. series.

Although outplaying the Catholic University at every angle in the early stages of the second game of the series, played last Saturday in the Carroll Institute Gym, the 'Varsity basketball team, slowed up in the second half just long enough for their opponents to clinch the game—the final score being 35 to 23.

In the last five minutes of play however, the 'Varsity quint showed their superiority by rushing C. U. off their feet and at the sound of the final whistle had cut down by a large margin the big odds C. U. had rolled up.

Almon was easily the star of the game, making nine successive free tosses for his team. Inability to break up C. U.'s offensive work in the second half lost the game.

The Southern trip made through Virginia, from January 9 to January 12, was not as disastrous as that of last year. The team secured a clean cut victory over V. M. I. by a score of 20 to 14, on January 20. The team was never threatened and had an easy time walking off with the long end of the figures.

The contest at Washington and Lee on January 9 was a hard fought one, the 'Varsity losing by the score of 30 to 19 after closing the first half with the tally 13-11 in their favor. They played a brilliant game in the early stages of the game but twelve hours spent in trains that day, combined with numerous "raw" decisions on the part of the referee proved too much for the quint and W. and L. romped away from them during the closing few minutes.

The team was handicapped in this game by the absence of two of the regulars, Gore and Hurley, who were unable to make the trip. Murray substituted for Gore and Noonan for Hurley. Groesbeck took Noonan's regular berth at forward.

(Continued on page 3.)

DEBATE WITH PENN POSTPONED TO FEBRUARY 21.

The debate between the University and the Philomathean Society of the University of Pennsylvania, scheduled to occur February 7, has been postponed to February 21 at the request of the debaters of the latter institution. The request has been made so that the Pennsylvania debaters might take advantage of the arguments presented in a forensic contest that soon is to be held with Syracuse University on the question of minimum wage legislation—the subject selected for the George Washington debates. The varsity teams are busily engaged preparing for the contests. The negative team will be sent to Philadelphia, and the affirmative team will uphold the honors of the university here.

VAUDEVILLE SHOW FOR ATHLETIC BENEFIT

**Pan-Hellenic And Other Organizations To Combine In Big
Production Soon.**

Immediately after the examinations active arrangements will be made for the staging of a large vaudeville show under the auspices of the Athletic Association in order to raise funds to wipe out the remaining athletic deficit. It is planned to give this show about the end of February.

The Pan-Hellenic association will be the feature of the big bill. These clever comedienness, who made such a distinctive hit in their original acts presented two years ago, have promised something even more elaborate for this athletic benefit. Although just what the nature of their acts will be has not been decided upon the talented co-eds with their well-known histrionic ability are expected to present something entirely new in the vaudeville line.

(Continued on page 3.)

ONLY ONE MAN MAKES PYRAMID

**Honor Society Elects One Man
Who Will Be Announced At
Smoker February 5.**

The fall election of the Pyramid has been completed with the election of but a single man. Owing to the lack of student activities the eligible list that was voted on was very small and but one man was considered to warrant the honor of being initiated. Following the usual custom the name of that man will not be given out until after his initiation which will take place at a smoker to be given by the Pyramid Society at the Theta Delta Chi fraternity house.

The fall election of the Society is limited to members of the graduating class and in order to qualify the men must have taken a prominent part in some activity of interest to the whole student body such as the student publications, the athletic teams and the debating teams. The larger number of men are initiated in the spring and it is due to the large number initiated last spring that the eligible list was so small this fall. The maximum number to be elected in any collegiate year is fourteen men.

Since the founding of the Society its membership has included all men who have led preeminently in any branch of student activities and its members are recruited from the members of the various fraternities and also from among the non-fraternity men and is broadly representative.

It is expected that a number of the graduates will attend the initiation and smoker on Thursday, February 5.

See—You mean to tell me you have have used a car for five years and never had a puncture?

Dee—I do.

See—What kind of a car is it?

Dee—Street car.

GREEKS AND FACULTY FRATERNIZE AT SMOKER

**Admiral Stockton Cheered For
Ten Minutes When He Delivered
Address.**

With praise and cheer for their alma mater brought forth in rousing speeches and clever "stunts" 300 Greek-letter men of the University fraternized with members of the faculty at their annual smoker held at the University Club, Thursday evening, January 15.

The smoker was marked by a show of college spirit seldom exceeded at any gathering of University students. Admiral Stockton, principal speaker of the evening, was greeted by the men with a volley of cheers prolonged for ten minutes. The subject of his speech was "Fraternities and Their Relation to the University". He urged the Interfraternity Association to use its best efforts for the betterment of the University. He mentioned two fraternities in particular, Kappa Sigma and Sigma Phi Epsilon, who had already given the University financial aid. He told a story of his early naval days, when an astronomical party of which he was a member stopped at the port of Bahia.

"One of the young astronomers came to me," Admiral Stockton said, "and told me he was going ashore for one hour. I said, 'And what are you going to do in that hour?' He said, 'I am going to observe the effect of the Roman Catholic religion on the life

(Continued on page 3.)

NEXT GAME IN GREEK LEAGUE FEBRUARY 3.

The interfraternity basketball league will resume its schedule Tuesday, February 3, when a doubleheader will again be staged at Epiphany gymnasium, on "G" Street. Kappa Alpha and Delta Tau Delta will play the first game and Sigma Phi Epsilon and Phi Sigma Kappa meet in the second. The schedule as adopted by the committee of the interfraternity association will go on interrupted after these games. All games will start promptly at eight and there will be only five minutes intermission between the first and second game.

When you wish to learn Shorthand, Typewriting, Book-keeping, or prepare for Civil Service, the best place is at

GREEKS AND FACULTY FRATERNIZE AT SMOKER

(Continued from page 1.)

of the people and the government of the kingdom of Brazil.' I said, 'I hope you will be able to see it in that hour.' Which is as much as to say that I cannot tell you in a brief talk all that I think the fraternities can do for George Washington University.

"I hope the opportunity will come for me to visit all the different fraternities and become better acquainted, with them. With some of them I am already acquainted, having visited them and having been well received by them. I think there are great possibilities in these fraternities to the present and future presidents of the University.

"I look for the fraternities to keep their membership and the scholarship of the members up to the mark, so that a fraternity man may look any man in the face and say: 'Notwithstanding the fact that I am a fraternity man I am none the less a good scholar.'"

A very appetizing Dutch luncheon was served. This was followed by many steins of good larger and good spirits reigned supreme. The hall continually resounded with fraternity yells and songs, some of them impromptu, each group vying with the rest in producing the most effective yell.

At the conclusion of the menu Dean Charles Noble Gegory, of the Law School, toastmaster, rose and proposed as the first toast, "George Washington University, God Bless Her," which was drunk standing, and was followed with a college yell.

In addition to the speeches made by the invited guests each fraternity furnished a four-minute act for the enjoyment of the gathering. Phi Chi was the first to be called on by the toastmaster and responded with a talk on the benefits of fraternities made by R. J. Hardstaff, a Senior in the Medical School. L. C. Terry, responded for Alpha Beta Phi, with his funny songs, accompanying himself on the mandolin. Dean Howard L. Hodgkins was then introduced by Dean Gregory, with the accusation that the College of Engineering was trying to swallow the rest of the University. Dean Hodgkins in a witty talk vindicated himself of such nefarious motives.

Sigma Alpha Epsilon rose about its table, joined in fraternity songs which were very well rendered. For Sigma Phi Epsilon, Henry A. Kruger, president of the Interfraternity Association sang "Perfect Days."

The toastmaster then introduced "the oldest fraternity man present", Dr. J. B. G. Custis, of Phi Kappa Psi, who defended the fraternities from their enemies and praised their many benefits. Sigma Chi's stunt was a series of humorous telegrams which which were read by the toastmaster. Among them was one to Dean Wilbur from a local theater offering him a large reservation for the "Broadway Maids."

Alpha Kappa Kappa responded with a talk on the local chapter made by Thomas Miller, of the senior medical class. Kappa Sigma introduced a member of the local chapter who gave some clever imitations. Stanton Peele gave a talk on fraternities as Theta Delta Chi's share of the entertainment. J. A. Hobson, of Phi Sigma Kappa rendered a few popular pieces on the piano. Delta Tau Delta put forward George Degnan, who furnished more of the fishwalk melody. As a finale Kappa Alpha produced several indictments against several of their members charging them with sundry crimes such as refusing to take a drink. John Jeffries was convicted of cutting the price of the Cherry Tree but exonerated himself of any charge of harming it.

The guests of honor included all the Deans of the University and Professor Henry Craig Jones and Professor Everett Fraser.

The officers of the Interfraternity Association are Henry A. Kruger, president; J. W. Scheffer, vice-president and treasurer; Donald McKnew, secretary. The committee on General Arrangements consisted of Donald H. McKnew, chairman, S. M. Barrett and Fred Fogle. The Entertainment Committee consisted of George Baston, chairman, J. W. Scheffer, and John M. Jeffries. The delegates to the Association are Sigma Chi, Frank Howard; Kappa Sigma, Fred Fogle; Kappa Alpha, John M. Jeffries; Theta Delta Chi, S. M. Barrett; Phi Sigma Kappa, J. W. Scheffer; Delta Tau Delta, George A. Degnan; Sigma Alpha Epsilon, Donald H. McKnew; Sigma Phi Epsilon, Henry A. Kruger; Alpha Beta Phi, George Baston; Phi Chi, C. P. Barrett; Alpha Kappa Kappa, W. M. Furgeson.

"Keeping in Front"

You fellows know what that means! We've been very successful in this regard with Fatima Cigarettes. By the way, these cigarettes were first sold in the college towns—and you agreed with us that they were good.

Then we put out for the big race, to make Fatimas of nation-wide reputation, and today more are sold than any other cigarette in this country.

No purer, or more carefully chosen tobacco grows than that in Fatimas. We purposely put them in a plain inexpensive wrapper—in this way we can afford quality tobacco, and twenty of the smokes for 15 cents.

Now your college crew is of utmost importance to you—so is a good cigarette, and it's your aim in life to keep Fatimas in the lead—right up to their good quality—right up to where you first found them, and will always find them.

Success fellows! You started this cigarette on its successful career—and you pull a strong oar all over this country.

BASKETBALL TEAM PLAYS BELOW FORM

(Continued from page 1.)

Gore and Hurley accompanied by Coach Schlosser met the team in Charlottesville on Monday, January 12. University of Virginia romped away with this game by the score 43 to 7.

Sunday, January 11, the team journeyed to Lynchburg, Va., spending the Sabbath in sight-seeing.

On tomorrow (Saturday) evening the Hatchettes go to Kendall Green to combat the Gallaudet quint.

Baltimore, Jan. 21.—Mount St. Joseph quint defeated the George Washington five tonight, 39 to 17. The Josephites outplayed the visitors at every stage of the contest. Hurley, Gore and Walmsley were the stars.

VARSITY GUARD MARRIED.

Announcement of the marriage of Jack Hurley, crack guard of the Varsity basketball team was made Monday and came as a surprise to all of his friends. Hurley was married to Miss Winnie Henoff of this city last July and has succeeded in keeping it a secret until recently when he confided in his team-mates during the Southern trip and the secret leaked out. Hurley is regarded as one of the best basketball guards in the South. He has been putting up a sensational game with the Varsity all this season.

LULL IN ACTIVITIES AS EXAMS. DRAW NEAR

A marked cessation of student activities and the pause in the gay social whirl which has been carried on at a rapid pace since the opening of college has been noted during the past week. Students are going around with gloomy aspects similar to that of the Melancholy Dane of Shakespeare, and the attendance at all lectures has reached the maximum point. Monday, January 26, the mid-year Exams, begin and last during the entire week. All lectures will be suspended during the week and a special schedule of the exams, which has been posted on all bulletin boards will prevail.

EBBITT HOUSE TO BE SCENE OF ENGINEER ARCHITECTS BANQUET

The annual banquet of the Engineering Society and the Architectural Club combined will be held at the New Ebbitt on Wednesday evening, Feb. 4. The menu will be of the best the season affords; an orchestra will furnish music throughout the evening; there will be good speaking and plenty of good fellowship. The unusually large enrollment in the Engineering Society, together with the additional attendance on account of the joining with them of the Architects, insures that this year's banquet will eclipse all others. Tickets are two dollars and may be procured from members of either of the two organizations. A cordial invitation is extended to all students of the University.

VAUDEVILLE SHOW FOR ATHLETIC BENEFIT

(Continued from page 1.)

Both the Men's and Women's glee clubs will have a prominent part in the bill while it is planned to put on as a headliner an act with both men and women in the cast.

The show will be staged in all probability in the assembly hall and will be given a three-night booking. The officers of the Athletic Association hope to realize enough by this production to entirely pay off all athletic deficits.

INTERFRATERNITY GAMES

LARGE GAINS SHOWN IN ANNUAL REPORT

President Stockton Shows Point of Improvement Over Year Previous.

In the annual report of Rear Admiral C. H. Stockton, made as president of the University to the board of directors, an improvement in the attendance and general activities of the University over the previous year was shown. The following is an extract from the report:

"The maximum number of students in the University during the year was 1347, distributed as follows: School of graduate studies, 92; Columbian College, 353; College of Engineering and Mechanic Arts, 196; College of Political Sciences, 56; Teachers' College, 87; department of law, 312; department of medicine, 103; department of dentistry, 70; National College of Pharmacy, 64, and College of Veterinary Medicine, 39.

"The report of the treasurer of the University shows an improved financial condition over the previous year, although we acquired the University building and a nurses' home, besides erecting the mechanical laboratory, with a consequent purchase of additional ground."

DRILLERY STUDENTS JOURNAL- ISTS.

The students of the Drillery have issued a lively little news sheet under the name of the Blotter with Marc M. Severe as editor-in-chief. The paper will be published monthly in the interests of the school. The first issue is full of breezy items of interest to all Drillery students.

BOOST G. W. U.

Editor:

Dear Sir:—We all know that "It pays to advertise," but few of us realize to what an extent it helps to build up a college and how such advertising necessarily comes from the student body itself. A college is known and recognized by the great majority of people, especially prospective students, for its athletic teams, its debating team, its social organizations but probably more than anything else, by its school paper. There are many who will dispute this statement but investigation bears out the fact that a large percentage of college men receive their first impression of their college through the college paper that fell into their hands by chance. The writer first heard of G. W. U. through a copy of The Hatchet that some one placed on the reference table of a high school in the northern part of New York state, along with other college papers and catalogs. There is no greater way of interesting prospective students than by placing the Hatchet where they can read it. Every loyal G. W. U. man can render the greatest service to our dear old Alma Mater by sending his copy of the Hatchet to his own high school or to some student who will soon be entering college. It will help to build up G. W. U. in numbers and in renown and far more than this, make more useful to the world, those who might avail themselves of our unequalled advantages for a higher education. As soon as we read our copy

of the Hatchet, let us each mail it to the home high school, some prospective student or to any other place where it will be read by young men.

FRANCIS E. VAN SCHAICK.
Law School.

INTERFRAT SMOKER.

Such events as the interfraternity smoker are the best possible method of bringing the faculty and students into closer union, of promoting a better college spirit and of enlivening student life. These events should be held more frequently in the course of the year. Questions are being asked as to the probability of holding the Annual Law School smoker this winter. The smoker last year proved a huge success and should be held this year by all means. A little push will put it through.

ATHLETICS.

The interfraternity basketball league is already an assured success. This is just the kind of sport we need for athletic contests between the students is the wholesome form of sport. More advantages are to be gained by this sort of sport than by any of the intercollegiate games. More men are given a chance to participate and the deadly rivalry which leads to the method pursued by too many of our colleges in their intercollegiate sport—that of winning at any cost—is not in evidence.

With the success of this venture a furthering of the scheme has been proposed. The plan of forming an interdepartment baseball league has been suggested. In this way the various departments would be brought into closer relation with each other and the student body would be given athletics that bring the best moral, physical and intellectual result.

COACHING.

W. A. Eckels, Ph. D., (Johns Hopkins) offers his services to those wishing careful individual teaching in Latin, Greek, History, or English. References given, including members of G. W. Univ. faculty. Call at or address 1218 Kenyon St., N. W. Mr. Eckels has had ample experience both as a college and preparatory teacher.

GREEK MEETS GREEK IN BASKETBALL LEAGUE

New League Opens With Double-Header Which Furnishes Exciting Goal-tossing.

The Interfraternity Basketball League celebrated its inaugural, January 13th, with a double-header in which Theta Delta Chi and Kappa Sigma were proclaimed victors over Sigma Alpha Epsilon and Alpha Beta Phi. The audience, numbering many partisan co-eds, taxed the capacity of the Epiphany gymnasium, and the League bids fair to be a financial as well as an artistic success.

The first game, which Theta Delta Chi captured from S. A. E. by a score of 19 to 0, comprising three touchdowns and eight knockdowns, demonstrated the influence which the open game, as upheld by the Army and Notre Dame, is wielding on the conservative East, for from the opening play until the referee's whistle brought the contest to a close, the forward pass was the dominating feature. It must be admitted that the backward pass was also in evidence, whenever "Froggy" Garner was not exactly sure in which direction his goal was situated, but then "Froggy" has been accustomed to changing goals every quarter and a habit does grow on one.

The backfield of S. A. E. was greatly handicapped in that its interference was late in starting, but, by liberal use of the stiff arm, long gains were made at times. The kicking of both teams was far above the standard, in fact the referee when interviewed by a Hatchet reporter as he was limping off after the game, admitted that it was the most strenuous he had ever experienced. "Socialist" Chamberlain was chief kicker for Theta Delta Chi while "Hydrophobia" Frederick performed the footwork for S. A. E.

To right half back and organizer, Sam Barrett, must go the lion's share of the limelight, for Sam, beside making every diving tackle perfectly, dropkicked three field goals, one from a difficult angle, and added three additional points to his team's score by three free goals. A place in Walter Camp's All-American seems destined for Sam. A stray collection of arms and legs was collected after the battle and owners may recover their property by identifying it.

Referee—Mr. Mark De Grange, of Epiphany. Timekeeper—Mr. L. Ott. Scorer—Mr. Randolph Shaw. Time of halves—15 minutes each.

KAPPA SIGS 12

ALPHA BETA PHI 8.

Whether the audience displayed uplifted thumbs before the second battle of the Greek graduates was not definitely ascertained but at any rate the last engagement was much less sanguinary and Kappa Sigma carried off the palm by a vote of 12 to 8 from Alpha Beta Phi.

Despite the fact that his team was on the short end of the score Capt. Brady was the hero of the second game and shared the evening's laurels with Sam Barrett.

Kappa Sigma. Pos. Alpha Beta Phi.

TEACHES PROPER

WAY TO TANGO.

CHICAGO, Jan. 22.—The University of Chicago, as a supplement to its curriculum, has added the teaching of the proper way to tango.

Several hundred co-eds crowded the theater in Kent Hall on the campus today to listen to a lecture by Miss Mary Wood Hinman, which was accompanied by a demonstration of exemplary performances of the new dances. Dean Talcott, head of the woman instructors in the university, and a large part of the women in the faculty witnessed the exposition, though it was primarily for the students, as a decision on allowing the tango in the college dances has been left entirely to the student body.

COLUMBIAN COLLEGE.

Miss Helen Cam gave a tea at her home recently which proved a highly enjoyable affair. Among those present were Misses Daisy Watkins, Edith Cheny, Anna Craton, Letitia Southgate, Everil Worrell, Ruth Ayler, Elsa Muench, Marguerite Wilson, and Margaret Reisinger, all of G. W. U., and Olga Menzel, and Alberta Haden of Western Maryland College.

The friends of Edward Moreland are glad to learn that he has resumed his studies at the University.

Walter H. Wakefield of the Law School joined the men's Glee Club at their meeting last Wednesday.

A fudge party was given to some of the girls of the University recently by Miss Everil Worrell. Those present were: Ruth Ayler, Marguerite Wilson, Edith Cheny, Elsa Muench, Helen Cam, and Josephine Stambaugh.

Teacher's College

Dean Ruediger attended the recent sessions in Atlanta, Ga., of the American Association of Science and the Southern Society for the Advancement of Psychology and Philosophy before which he read a paper "Avocational Education". He was reelected secretary-treasurer of the Southern society.

Dr. Small has recently recovered from a slight illness.

The class in elementary education visited the Naval Observatory last week to observe the phenomena of the Heavens as an aid in their study of the method of teaching geography.

CHANGE IN PROFESSORS.

College of Veterinary medicine has lost a very well-liked and capable instructor in Dr. Graybill, who was professor of Zoology and Parasitology. Mr. Hall, who is employed in the Bureau of Animal Industry, has taken his place.

Engineer - Architect Banquet at the Ebbitt House, February 4. Tickets, \$2.00. You'll be there of course.—Advt.

MEDICAL NOTES.

J. George Persons, a member of the freshman medical class, died at the University Hospital at 2:30 a. m. yesterday as a result of a tumor of the pancreas and sarcoma of the intestine. On Wednesday, January 14, he was operated on by Dr. William C. Borden and Dr. D. L. Borden in a vain attempt to prolong his life and from then on no hope was given for his recovery. He was able, however, by reason of his strong physique to withstand the inevitable for a week. On Sunday morning his mother arrived at his bedside from her home in Colorado, and she stayed there continually until the end came. Persons, was very popular among the members of his class and received many floral remembrances from them and from the Phi Chi fraternity of which he was a member.

A demonstration of the "Lung Motor" an instrument used in producing artificial respiration, was given before the first and second year classes recently. The apparatus is similar to the pulmotor, the manufacturers claiming to have made improvements, in that inflation of the stomach is impossible, by means of it an oesophagus block prevents the passage of air into the stomach.

The majority of the victorious Kappa Sigma basketball team are medical students: Lynch, Field and Rowson are members of the team.

The seniors were examined in pediatrics January 19.

R. T. Haskell, sophomore, a crack shot from Kentucky, intends to try for the rifle team to represent the school in the out-door match.

Hayne and Kline, freshmen, have gone to housekeeping. They are becoming famous for their cooking. Mother's is not in it.

The following medicos were at the Interfraternity Smoker: Hardstaff, Brown, Pullen, Miller, McCray, Putzki, Gentzkow, Field, De Luca, Bradley, Quirk, Rice, Kenner, Haskell, Rhiel, Bolton, Ball, Brothers, Ferguson, Barrett, Mann, Myers, Mueller, Gill, Kennedy, Satterlee, McDowell and Mulligan.

Dr. Morrison, interne at the University Hospital, soon expects to leave for his home in southern Canada, where he expects to practice.

Dr. May Stout, '13, is now practicing in Washington after several months of hospital work in other cities.

Philip Sze, '14, was recently appointed student interne at the University Hospital.

The seniors and juniors have recently taken up obstetrical cases under the instruction of Dr. H. W. Lawson.

Seniors are attending clinics at the Government Hospital for the Insane.

What promises to be a great help to the freshmen in the study of the physiology of the nervous system, is the course being given by Dr. C. L. Davis on the anatomy of the brain. Previous to this year the anatomy of the brain was taken up after the physiology had been studied, making the study of the latter very difficult.

The sophomores recently completed work on the practical bacteriological diagnosis of diphtheria and tuberculosis. David B. Peters, a member of the class and bacteriologist at the Tuberculosis Hospital, proved of great assistance to the class in the work on tuberculosis.

GLEE CLUB GROWING.

The Glee Club has doubled in size since its organization about two months ago, but a standing invitation is extended to all men of the University to lend their assistance toward making the club well representative of the musical talent in the school. Since the last issue of the Hatchet two meetings have been held, one on January 14, and one on January 19. No more rehearsals will be held until after Exams. The announcement of the next meeting will be made in the next issue of the Hatchet.

LAW SCHOOL NOTES.

We are now full in the period of sackcloth and ashes, wailing and moanings are heard on every side and such pitiful sobs as "Why didn't I spread it out during the term" and "Oh, Lord! Give us an easy one," fill the air. Each and every class sees in the impending exams, some special peril peculiar to itself. The Freshman approaches the ordeal with fear and trembling occasioned by unfamiliarity and mystery. The Junior seeks only to escape the treacherous and impending ledge "midchannel" whiel the Senior with the glorious visions of a diploma before his eyes is ever mindful of the proverb of the cup and the lip.

The assertion of the Common Law Pleading text that "trial by ordeal has long since passed out of the law" seems but idle mockery in these days.

Monstier Miltenberger of the Second Year pleads guilty to being a Baron, and the Class has risen a grade. Last year the best it could boast of was a live count, de Mankowski being the recipient of that honor, but with this promotion from a count to a baron, the future holds open a wide promise and who knows, but when Dean Gregory hands out the 1915 diplomas, a royal hand may be outstretched to receive the coveted sheepskin.

So far the Junior Class has been deprived of the comfort of the new benches but hopes are entertained that an installation may take place before the next semester.

Professor Peter has made the life of a Scottish Manor Lord so attractive that several members of his class in Evidence are seeking election at the next primaries in the land of Harry Lauder.

Now that the Interfraternity smoker has come and gone, what plans are being formed for the social side of the Law School?

Members of the Junior Law Class are congratulating Arthur Woolley on the step he took last Saturday night in entering the happy state of matrimony. Very unexpectedly to his friends Mr. Woolley left for Baltimore and was married to Miss Ivy Houtz.

Miss Houtz and Mr. Woolley are both natives of Utah. Mr. Woolley met his bride recently while in Berlin, Germany, where she was studying music. They have been engaged for some time but the announcement of the wedding came as a surprise to their friends. The couple will make their home in this city and Mr. Woolley will continue his studies in the Law School. He is a member of the Sigma Phi Epsilon fraternity and is employed as secretary to the Washington office of the Brotherhood of Railroad Engineers.

Wonder whether we'll be able to smoke at exams. this year or not? Don't know bro.; it's "in femino jurisdiction."

It's all in the life you lead. That is, according to "Pete" Chamberlain.

Did you get your photo for the Cherry Tree?—Jeffries.

Nickerson, '16, has withdrawn from school owing to poor health.

Prof. Ernest: If you sue a beggar you get a louse.

Cornwell: Is that so?

After exams: Where are the faces we used to know in the days before the war?

DRILLERY STUDENTS**ARE JOURNALISTS.**

Mr. Frank Fuller, A. B., George Washington, Phi Kappa Psi, still has the interests of the old school at heart and in his capacity as principal of the Drillery extends a hearty invitation for all to pay him a visit.

TO OUR FELLOW ALUMNI:

If you think of taking a Course at a Business College in Shorthand, Typewriting, Business or Civil Service, consult Mr. Frank Fuller, our Principal, who is an A. B. and Alumnus of George Washington University. He will advise you as a Fellow Alumni as to systems, methods, and courses.

FRATERNITY NOTES.

Chi Omega had a pledge party in the fraternity room on Tuesday, January 6.

Pi Beta Phi enjoyed a pledge supper in the chapter room on Tuesday, January 6.

Miss Gertrude Hastings spent January 17-18, at Richmond, Va., visiting Miss Gladys Johnson, a George Washington student of last year. Miss Johnson is studying at Richmond College this year.

The Kappa Alpha held a delightful dance at the chapter house 1517 P St., last Friday evening.

Leonard J. Long, Syracuse, '13, and a member of the Sigma Phi Epsilon fraternity visited the chapter house recently.

A tea was held at the S. A. E. House, 1236 Euclid street, last Sunday afternoon, January 18, in honor of Mrs. Wheeler, of California, mother of Alden Wheeler, freshman in Columbian College, who was visiting her son during the past week.

WILL NOT MEET.

All regular meetings of the various organizations have been called off during next week. Both the Varsity and interfraternity basketball teams will be idle until after the crisis has passed.

Editor—This joke is not new.

Freshman—It has never been printed before.

Editor—It was an awful oversight on the part of Noah, then.

"Are you satisfied with your office boy?"

"Yes, but I have had occasion several times to fear that he might not be wholly satisfied with me."

Bill—I see St. Louis schools are to have a dental clinic with volunteer dentists.

Jill—For the love of Laughing Gas! I thought the schools were doing away with all forms of extreme punishment.

Popular Educational Food Campaign.

Secretaries needed. Young ladies between the ages of 20 and 35. No stenography or typewriting required. Government hours. Booklet mailed free. Apply 11 A. M. or 7 P. M. at 1322 Rhode Island Avenue.

ASSISTANTS ELECTED.

Tom Murray, Wallace Atherton, and George Degnan were elected as assistant managers of the basketball team by the members of the Athletic Association at the election which closed January 10. From this trio of assistants, the manager for next year will be chosen by the A. A. executive committee.

CHEMICAL SOCIETY.

The Chemical Society enjoyed a very instructive trip through the works of the Washington Gas Company on Saturday, January 17. A very thorough inspection of the plant was made and many things about the industry were learned by the members.

The annual trip to Baltimore is planned for the March trip. The Electrotype Copper Works and the Steel Plant will be visited.

The Chemical Society expects to hold its annual banquet on February 21.

Messrs. Lepper and Frey have decided to cast their lot with the Government and have started some important work at the Bureau of Chemistry. Two more George Washington men are showing the excellent training they received.

The Chemical Society held a very interesting meeting on Wednesday, January 14. Mr. Taylor discussed the manufacture of illuminating gas in a very concise manner, using many illustrations in his talk.

Mr. Engle discussed "coal" at this meeting. His paper dealt with the theories of formation, analysis and the structure of that very useful substance. He explained at length the methods pursued in the Bureau of Mines in the testing of coal. At the end of the discussion he told the members of theories advanced for the blackness of coal, stating that the consensus of opinion was that the color was due to the presence of asymmetric carbon atoms in the molecules of the material.
